

# THE BOUNDARIES OF THE BATTLEFIELD

*- A Critical Look at the Legal Paradigms and Rules  
in Countering Terrorism -*

10 & 11 January 2013,  
The Hague

The International Centre for Counter-Terrorism – The Hague and the T.M.C. Asser Instituut, in cooperation with the International Humanitarian and Criminal Law Platform, the Konrad Adenauer Stiftung and the Municipality of The Hague, cordially invite you to this symposium to discuss the contours of various approaches states take against non-state actors with the goal of countering terrorism.

The two-day symposium will specifically address issues related to uses of force and how these may affect and define the geographic and temporal scope and limitations of the laws of armed conflict in relation to counterterrorism. Besides this main theme, which operates within the armed conflict paradigm, the conference will also discuss and assess the law-enforcement paradigm in counterterrorism strategies.

In light of the recent developments with drone technology and trans-boundary disputes with non-state actors, top academics and practitioners will come together from all over the world in order to discuss the most pertinent issues defining the boundaries of the battlefield and try to find the way forward in countering terrorism.
