pression.

Marly the next morning after the briefing we left for My Lai (4). I think I was on the first air lift and I believe HUTSON, WRIGHT, TORRES, MOWER and ROCHEVITZ were along with me in the same chopper. We landed in a dry rice paddy on the outskirts of the west side of the village. We were about 100-200 meters from the village. MOWER, TORRES and I set up our machine gun. No more then 50 meters away, WRIGHT and HUTSON set up their machine gun too. At this time we were not firing our machine gun.

As we landed in the LZ, the chopper that I was on was not firing its machine guns. I do remember that some of the gunships in the area were firing their guns but I do not know what they were firing at. I don't remember any artillery fire as we landed but it

is possible that there was some firing.

After we had set up our gun, the first and second platoons formed on line. took about 30 minutes and then the platoons started moving out. We moved out and I was carrying the machine gun. Everybody on line opened up on the village and I was firing the machine gun into the village. At this time I wasn't füring at anything in particular, just firing for recon. As we got on the outskirts of the willage an order came down from the company to destroy all the food, kill all the animals and kill all the people. I dop threcall who told me about this and I guess that it came from higher headquarters.

Wen, we entered the village I saw Vietnamese running for cover and trying to hid. the whole company opened up on the villagers and began to kill them. It was murder. We were shooting into houses and shooting at people running or people just standing and doing nothing. At this time I was firing at the people and shooting into the houses. TORRES had an M-16 and was also shooting along with everybody else. About 30 minutes in the village, TORRES wanted the machine gun so at this time I gave him the M-60 and I took his M-16. TORRES liked to fire the M-60 better then the M-16 and I wasn't happy about shooting all the XXXXX around anyway. people anyway. It was common practice to switch the gun around anyway.

We continued through the village shooting at everything. As far as I could tell about everybody in the company was shooting. We didn't collect any people and we didn't try to capture anyone. I didn't agree with all the killing but we were doing it because we had been told to do it. We shot men, women and childrem.

Somewhere in the vicinity of halfway through the village, we came upon a little clearing in the village. There was a pretty small hut there. There was a group of 10-15 people, men, women and children standing around in the clearing. Some were in groups and some were running around. There was me, TORRES, MOWER and 3-4 riflemen from the second platfor together and we all opened up on the group of people. TORRES opened up with the machine gun. After TORRES stopped firing, I shot one or two of these people with the M-16. I shot them from a distance. MOWER shot ome or two of them with a 45. The reason I shot these people was because I was ordered to kill everybody in the village. As far as I know this group of people were all killed. There was men, women and children in this group, ranging from old people to young people. I don't recall any babies in this group. I did see some babies shot, but they were not in groups and scattered as we moved through the village.

This is the only group of people of that size that I shot or helped to shoot. I saw other groups of 7-8 people that were shot and killed. One group I remember now was shot and killed by ROCHEVITZ. He carried an M-79. These people, men, women and children, were sitting in a group in a clearing in the village, and ROCHEVITZ fired two rounds from his M-79. The first round missed and the second round hit them. Some of the people were not dead and I remember one of the rifleman went up and shot the people in the group that were only injured. All these people were killed. I remember that

Statement of SGT Charles Ed. ard HUTTO, taken at Fort Lewis, A, dated 17 5 49 BTH Continued:

Che first round fired by ROCHEVITZ almost hit SGT BUCHANAN, our platoon sergeant. I don't know if he saw them killed or not as he walked up after everything was over. Nothing was said about him nearly being hit.

These are the only two groups of people being killed that I remember. The rest of the people I saw killed were scattered throughout the village.

Q: How many people did you kill during that mission?

A: I can't really estimate. Maybe 8-10. Maybe more or maybe less. These were men, women and children and I can't remember any specific details.

Q: How much firing did you do?

A: 75 - 100 round of M-60 ammo. Both firing for recon and at people. I also fired about one magazine when I had the M-16. I don't remember if I had any grenades or not, but I do remember that I didn't explode any grenades.

Q: Did you approve of all the killings?

- A: No. I did it because I was ordered to do it.
- Q: Can you estimate how many dead persons you saw as you moved through the village?

A: I'd day 30 - 50 or so. I can't really recall.

Q: Did yop hear anything about a ditch, or people being killed at a ditch?

A: Yes, LXX like I told you I heard that LT CALLEY, the first platoon leader, had two large groups of people and lined them up and gunned them down. I didn't see this and I don't know if it is true or not. I don't remember who told me about this and as I recall, I heard about this before I left the village.

Q: How, long were you in the village?

A: most of the morning. I remember wh had lunch inside the village on the wood line at the edge of the village.

Q: Do you have any information about CARTER being, injured?

A: No, but I heard that he shot himself in the foot. I don't know if this was on purpose or an accident. I don't remember seeing CARTER at all.

Q: What route did you travel through the village?

- A: I went through the village on the northern edge of the village. Later on I moved thoughout the village.
- Q: Did you see CPT MEDINA or any other of the unit officers while you were in the village?

A: I don't recall seeing any of them.

- Q: While you were inside the village, do you recall getting any type of cease fire order?
- A: I don't remember hearing an order. After we got through the village to the other side everyone ceased fire. We stopped firing because we reached the edge of the village. I don't recall getting an order.
- Q: I have read to you part of a statement made by Varnado SIMPSON, who stated that you and other persons raped and shot a girl in the village. Would you care to comment about this?
- A: Just that I did not do this and I don't recall seeing anyone do this. 7

Q: Do you know why he might make such a statement?

- A: Maybe he thought he saw me there if it happened, but if it happened, I was not there I don't know anything about a girl being raped.
- Q: I have read to you part of a statement made by John MOWER, in which he stated that you and he shot some people after TORREST had some them with the machine gun. Is this the same incident that you descrized above?

A: Yes it is.

Q: Can you explane why the XXXXXXXXXXXX villagers were all shot?

A: Because they were all considered communist from the word that we had gotten from CPT MEDINA.
